## Workshop on Account Aggregators - 12th February

### Highlight of the month

- The workshop deliberated on practical (operational) aspects of account aggregator framework to facilitate RRB officials to understand the opportunities and challenges posed to banks.
- Practical inputs and use cases were shared by Sahamati and account aggregators

### Key learnings & concerns\*

- Period of consent should be defined
- Lien marking information should also be provided by Account Aggregators
- Enabling provisions should be included for protection of bankers
- Interoperability of AAs should be examined
- Customer awareness initiatives needs to be undertaken

### Centres at BIRD

## Centre for Climate Change (CCC)

CCC, an experiential learning lab has been established at BIRD to facilitate capacity development of various stakeholders, enabling them to access and mobilize financial resources for addressing Climate Change issues.

### Terminology demystified

## Account Aggregators

Account Aggregator provides data to a Financial Information User (FIU) from a Financial Information Provider (FIP) based on the user's explicit consent.
