Centre for Professional Excellence in Cooperatives (CPEC)

Centres at BIRD

C-PEC aims to streamline training systems in Cooperative Credit Structure (CCS) which would ensure availability of professional staff with the cooperatives for efficient delivery of banking and financial services. It offers the following certification courses to the employess of credit cooperatives

Course	Enrolment in FY 24
Certified Trainer for Financial Cooperatives (CTFC)	4254
Certified Professional in Cooperative Banking (Level - I)	2183
Certified Professional in Cooperative Banking (Level - II)	34
Certified PACS Secretary (CPS)	637

Terminology demystified

'Unsupervised learning'

A form of machine learning in which algorithms analyse and cluster unlabelled data sets, by looking for hidden patterns in the data – without the need for human intervention to train or correct them
